

BRUCE E. OWEN

Electrical Engineering

Bruce Owen is Electrical Engineer at AbsolutAire. In this role, Bruce has a range of responsibilities, including product electrical systems design, project technical support, and electrical research and development.

Bruce began his HVAC career in 1978 with Rapid Engineering in Grand Rapids, Mich. He held various positions in manufacturing and engineering during 12 years with the company. In 1990, Bruce left the company to become a realtor with Westdale Better Homes & Gardens in the Grand Rapids area. He then joined AbsolutAire upon its start-up in 1992 and, for a number of years, managed electrical assembly before assuming his current position of Product Manager.

Bruce has taken selected classes in electrical systems design at Grand Rapids Junior College. During his time with AbsolutAire, he has also participated in various specialized training opportunities provided by HVAC component suppliers, including Maxon Burners, Honeywell Burner Controls, and Lincoln Motors.

Bruce is single and has a son, Justin, from a previous marriage. He currently resides in the Kalamazoo area, and is active in golf, bowling, and snowmobiling.
