

## **ANDY REEG**

### **Mechanical Engineering**

Andy Reeg is in the Mechanical Engineering group at AbsolutAire. Andy is primarily responsible for custom systems and unit design, project management, and overseeing orders released to the plant for production.

Andy joined AbsolutAire in 2003, when he assumed his current position. Andy had previously been employed at American Energy Exchange (AEX), a manufacturer of kitchen-hood and make-up air systems, located in Kalamazoo, Mich. He worked in a similar engineering capacity at AEX as he does now at AbsolutAire.

Andy has attended Kalamazoo Valley Community College (KVCC), earning an associate's degree in Computer Aided Design (CAD) in 2000.

A local-area resident, Andy is single and he enjoys most outdoor activities. Golfing, fishing, and hunting are among his favorite forms of relaxation away from work.
