

KRIS R. WITTEVEEN

Sales Engineer

Kris Witteveen is a Sales Engineer at AbsolutAire. In this role, he is responsible for providing quotations for custom units across all product lines, including equipment with cooling sections, energy recovery heat exchangers, and special controls. Kris is also focused on product development, working with engineers and company representatives on equipment specifications, and providing engineering assistance to the sales and customer service groups.

Kris began his career at AbsolutAire in the customer service department in 2005, with more than 20 years of industrial design and engineering experience. As a high-school student, he began his career preparing submittal drawings for Espec Corporation in Hudsonville, Mich. Kris eventually became involved with designing Espec's world-leading environmental test chambers and had added responsibilities in CNC machine programming. Prior to accepting his current role at AbsolutAire, he also designed industrial fluid chillers at Koolant Coolers in Kalamazoo, and he served in sales, design, and project supervision with American Metal Fab in Three Rivers, Mich.

In 1989, Kris earned a bachelor of science degree in mechanical engineering technology from Lake Superior State University in Sault Ste. Marie, Mich., where he was also awarded drafting and design certification. During his business career, Kris continued his education with courses and training in universal refrigeration, team leadership, and value stream mapping.

Kris has been married since 1990 to his wife Peggy, who teaches language arts at Gull Lake Middle School in Richland. They have two beautiful daughters, Emily and Samantha. A diverse family life includes serving their church, enjoying NASCAR racing, hiking in the woods, taking in a Broadway play, watching a good hockey game, and especially being together at home.
